

Are you prepared for the IR35 Tax changes?

In April 2017 we managed the employment status of over 15,000 workers in the healthcare sector when IR35 changes were implemented.

In April 2020 the same tax rules will be applied to the private sector for contractors operating Personal Service Companies (PSC) presenting a new tax risk to the end-user.

Each week we payroll 44,000 contract workers:

15,000
Health Care Professionals

You will need an agent who has the highest levels of compliance so you can trust they are HMRC IR35 compliant.

12,000
Engineering Contractors

Flexible workers, rather than permanent employees, is still going to be a valuable resource but they need to be tax compliant and distanced from your permanent workforce when you need access to additional labour and skills.

10,000
Education Professionals

SSR Personnel are here to ensure that we offer you the benefits of flexible workers within the new world of IR35 working.

6,000
Support Workers

Please contact Jeff Johnson for further information:
